## Kerridge CS ranked in Sunday Times HSBC International Track 200!

We are delighted to announce that Kerridge Commercial Systems (KCS) has been ranked No. 37 in The Sunday Times HSBC International Track 200, a league table that ranks the top 200 of Britain's mid-market private companies in order of fastest growing overseas sales.

The league table is produced by Fast Track, the Oxford firm that researches and ranks Britain's top performing private companies. When surveying the companies, Fast Track also found that the US is the most popular country for overseas sales, with 118 of the 200 companies citing it as a major market. It is also the top choice for future growth, with more than half the firms (107) planning to expand there.

Fast Track also believed the league table shows the resilience of Britain's mid-market exporters. Despite the uncertainty created by the on-going Brexit negotiations, their combined international sales have grown by an average of 62% a year over the last two years to a total of £10.1bn, the highest growth rate measured in the survey since 2013.

The Sunday Times reported that it was another sign of confidence that 60 of the listed companies had chosen to acquire overseas businesses to help accelerate their growth – up from 46 last year. The six strategic acquisitions KCS made recently in Europe, the US and South Africa were obviously instrumental in our international sales reaching £24m in 2017.

The full league table was published as an eight-page supplement with the business section of The Sunday Times on 10 June, both in print and in the digital edition and on:
